Meet Henri

Henri is a beautiful Silver Slate turkey. He arrived at Winslow Farm in April of 2017, when he needed a new home. Henri is loaded with personality and is quite a character. In the summer, he likes to cool off in his pool. He loves grapes and peanuts, and he will eat right out of the hand of our staff member, Tracy. He also likes to keep Tracy company while she prepares produce for the farm animals and enjoys basking in the sun.

Several weeks ago, Henri was walking with a noticeable limp. It got to the point where he was depressed and standing on one leg. Debra White wrapped his wings, placed him in a soft pet carrier and traveled to Tufts in Grafton to be seen by a veterinarian. Henri was a good passenger in her truck the entire way. Henri was examined and it was decided that he would stay overnight for observation and tests.

Thankfully, Henri's bloodwork proved negative for the bacteria, mycoplasma, and his joint fluid culture came back negative as well. His radial exam showed some deterioration in a toe joint, which was causing pain and inflammation. Additionally, it was determined that Henri also had an ear infection! Henri was put on antibiotics and medicine for pain and inflammation for two weeks.

Henri returned to the vet two weeks later for a follow-up, where he was given a secondary parasite dose. Henri checked-out well, however, he will need long term support with pain medication.

Henri's veterinarian costs were just under \$3000. If you would like to help us with the cost of Henri's medical expenses, you can do so [here](#) or use the Donate To Winslow Farm button below to make your donation. We appreciate your continued support of Winslow Farm Animal Sanctuary!

This Year, Consider A Compassionate Thanksgiving

Spending time with animals, seeing their individual personalities develop and shine through, and watching their interactions with other animals as they form their own communities with their friends, gives you a different perspective: that animals have real lives and want to live freely just like we do. Seeing animals as beings instead of food opens our hearts to engage with them as friends and companions instead of beings to fear or eat. This year, please consider a compassionate Thanksgiving.

For some ideas about how you could embrace a compassionate Thanksgiving, please take a look at an article from Spirituality & Health Magazine, [Planning a Heart-Centered Thanksgiving](#).
